After two years of successful participation in Super League competitions among Iranian

Sport clubs, Towzin Electric Sports Club officially withdrew from participating in 1390 super league competitions

Morteza Pouyan, General Manager of Towzin Electric Sports Club, officially withdrew from participating in 1390 Super League Competitions by sending a written notice to Director of Iran Basketball Federation.

Mr.Pouyan offered the following explanations for Club decision:

Towzin Electric company entered into sport activities with a strategic planning and established programs to pursue certain professional objectives. Towzin Electric basketball team managed with the help of God to reach its established goals one year ahead of schedule by standing fourth in the last Super League competitions.

The main objective of a dynamic enterprise is to maintain sustainable profitability through continued growth. As a progressive industrial establishment, Towzin Electric has invested 40 billion Rials in its expansion project to extend and modernize its production facilities with the latest technologies. With this investment, our human resources has increased 20% percent and now stands at 530 employees.

Towzin Electric's new investment and close cooperation with Iran Standard Institute has made Iran rank fifth in weight and measurement standards. This achievement is a great honor for progressive Iranian people.

After careful consideration by myself, Board of Directors, and company executives we reached this decision not to participate in the next Super League competitions.

Towzin Electricis a team with good track records and excellent conduct

Towzin Electric Sports Club in Kashan officially began investing in basketball in 1386. This team entered in Super League competitions in 1388 after succeeding in subgroup league,secondary league and placing second in primary league.

Towzin Electric basketball team achievements included sixth place and excellent conduct cup in 1388 basketball Super League, second place in 1388 national sports clubs Youth Super League competitions, fourth place in basketball Super League competitions in 1389.

Super League basketball competitions and Towzin Electric's absence

Super League basketball competitions started this year with Towzin Electric's absence strongly felt.

Rumors began circulating among sport fans and experts offered different interpretations after Towzin Electric's decision not to participate in this year's Super League.

The importance of this issue prompted us to interview responsible individuals, Towzin Electric basketball fans, and local sport officials to seek their opinions.

An absence which could not be filled easily

One of Towzin Electric basketball fans in Kashan: After two years of successful participation in basketball Super League, the decision not to be present in this year's competitions shocked team's fan who are mostly among the young generation in Kashan.

Hosein Afzaly (17) alluded that we became fans of Towzin Electric basketball team and we were proud of having such team in Kashan. We were very disappointed when we heard this team would not participate in this year's competitions.

He added that Towzin Electric's place in Super League basketball competitions could not be filled. This feeling further exacerbated among sport fans in Kashan when competitions began.
